PRICE LIST NO. 154

**..The..  
Siebenthaler Company  
NURSERYMEN**

**SIEBENTHALER AVENUE AND CATALPA DRIVE**

**DAYTON 5, OHIO**

*Established 1870*

**LOCATION**

**T**he CATALPA DIVISION of our Nurseries is located at the corner of Siebenthaler Avenue and Catalpa Drive, which is three and one-half miles northwest of the center of the city of Dayton.

May be reached by going out Salem Avenue (S. R. No. 49) to Catalpa Drive, and then north one mile; or out North Main Street (S. R. No. 48) to Siebenthaler Avenue and then west one-half mile.

Our MORaine DIVISION is located six miles south of Dayton at Moraine City.

May be reached by going south on U. S. No. 25 out of Dayton to Springboro Pike (S. R. No. 741) and then left one-third mile to entrance of Nursery; or down Lamme Road to Polo Field which lies opposite the east entrance to the Nurseries.

Our MAIN OFFICE is on Catalpa Drive at Siebenthaler Avenue, and may be reached at all times by local or long distance telephone.

**Randolph 1154**

PLEASE READ CAREFULLY

**DIRECTIONS FOR ORDERING:-** Write name and address plainly and advise time and method of shipment; otherwise we will use our best judgment and ship by the shortest and safest route.

**PRICES:-** Prices in this list cancel all previous lists and quotations. They are subject to change without notice and to stock being unsold upon receipt of order. They include packing costs, except on excessively bulky material, and are F.O.B., our freight or express station. For local orders, they include delivery to customer if within ten miles of our Nursery. Cost of delivery by truck to more distant points will be quoted upon request.

**SUMMER PLANTING:-** An extra charge is made for balling deciduous plants not marked B&B either in dormant season or in full leaf for summer planting.

**TERMS:-** Cash with order, except to persons who satisfy us as to their financial responsibility, when accounts will be due in thirty days from date of invoice.

**INSPECTION:-** A certificate of inspection by the Ohio Department of Agriculture will be attached to each shipment.

**LANDSCAPE SERVICE:-** We maintain a thoroughly trained landscape organization fully equipped to handle any landscape project including designing, consultation, and planting. Ask for special quotations on such work.

**GUARANTEE:-** All plant materials are guaranteed to be true to name, up to size specified and in good healthy condition when delivered, otherwise replacement will be made or original amount paid will be refunded. We cannot, however, guarantee the growth of plants not planted by us. This is due to the perishability of such material and the fact that their care and up-keep is beyond our control. Any plants planted by our Landscape Department and given proper care by the owner are guaranteed to grow and thrive satisfactorily for one year from date of planting. Those failing to do so will be replaced without charge the following planting season.

PLEASE READ CAREFULLY

This list of hardy ornamental nursery stock comprises all the worthwhile varieties of plant material adapted to this section, and will fulfill practically every need for landscape development.

Those items marked "B&B" include the price of balling in the price quoted. During certain seasons of the year other varieties may be successfully transplanted by digging with a ball of earth, for which an extra charge will be made. See schedule below.

This stock is all well grown, frequently transplanted or root pruned, properly sheared and trimmed to retain the natural character of the plant and to improve its density and form and to facilitate transplanting.

In addition to the usual sizes listed herein, we grow many varieties of shade and evergreen trees into large finished specimens. These are well spaced and carefully grown, and are not to be confused with left-over trees in old nursery rows. These involve the use of special moving equipment and are quoted on pages 35-41 which price includes moving and planting with a large ball of earth.

B & B SCHEDULE

Extra charge for balling and burlapping plant materials not quoted B&B in price list.

## SHADE TREES

	Each
ACER dasycarpum pyramidale      Pyramidal Silver Maple	
1 $\frac{1}{4}$ to 1 $\frac{1}{2}$ in. diameter	\$4.00
1 $\frac{3}{8}$ to 1 $\frac{3}{4}$ in. diameter	5.50
1 $\frac{3}{4}$ to 2 in. "	7.00
2 to 2 $\frac{1}{2}$ in. "	9.00
For larger sizes see Page 35	

platanoides      Norway Maple	
1 to 1 $\frac{1}{4}$ in. diameter	3.75
1 $\frac{1}{2}$ to 1 $\frac{3}{4}$ in. "	6.50
1 $\frac{3}{4}$ to 2 in. "	8.00
2 to 2 $\frac{1}{2}$ in. "	10.00
For larger sizes see Page 35	

platanoides Columnare      Pyramidal Norway Maple	
1 $\frac{3}{4}$ to 2 in. diameter	12.50
2 to 2 $\frac{1}{2}$ in. "	16.00
For larger sizes see Page 35	

platanoides schwedleri      Schwedler Maple	
6 to 8 ft.	4.25
8 to 10 ft.	5.50
1 $\frac{1}{4}$ to 1 $\frac{1}{2}$ in.	7.00
For larger sizes see Page 35	

rubrum      Red Maple	
1 $\frac{1}{4}$ to 1 $\frac{1}{2}$ in. diameter	4.75
1 $\frac{3}{8}$ to 1 $\frac{3}{4}$ in. "	6.50
1 $\frac{3}{4}$ to 2 in. "	8.00
2 to 2 $\frac{1}{2}$ in. "	10.00
For larger sizes see Page 36	

saccharum      Sugar Maple	
6 to 8 ft.	3.50
8 to 10 ft.	4.50
1 $\frac{1}{4}$ to 1 $\frac{1}{2}$ in. diameter	5.50
2 to 2 $\frac{1}{2}$ in. "	12.00
For larger sizes see Page 36	

AESCULUS carnea      Red Flowering Horsechestnut	
6 to 8 ft.	10.00

glabra      Ohio Buckeye	
3 to 4 ft.	2.50
4 to 5 ft.	3.00

hippocastamum rubicunda      Pink Flowering Horsechestnut	
6 to 8 ft.	7.00
8 to 10 ft.	9.00
2 to 2 $\frac{1}{2}$ in. dia. B&B	25.00
2 $\frac{1}{2}$ to 3 " " B&B	30.00

		Each
AESCULUS octandra	Yellow Buckeye	
3 to 4 ft.		\$3.00
4 to 5 ft.		4.00

BETULA alba	European White Birch	
10 to 12 ft. B&B		10.00
2 to 2½ ft. B&B		17.50

populifolia	Gray Birch	
1¼ to 1½ ft. B&B		8.00
1½ to 1¾ ft. B&B		10.00

CARPINUS betulus	European Hornbeam	
6 to 7 ft. B&B		12.50
7 to 8 ft. B&B		15.00
8 to 10 ft. B&B		17.50
10 to 12 ft. B&B		22.50

betulus pyramidalis	Pyramidal Hornbeam	
5 to 6 ft. B&B		9.00
6 to 7 ft. B&B		12.00
7 to 8 ft. B&B		16.00
8 to 10 ft. B&B		20.00

LARGE SPECIMEN TREES

NURSERY GROWN - TRANSPLANTED

These trees are all grown far apart in nursery rows, having been frequently transplanted to insure a good root system and render them especially suited for future moving. The caliper measurement is taken at a point six inches above the ground.

The saving of time in planting such trees is so marked that scarcely any home owner can afford to plant the usual small tree which would require ten to twenty years to equal these in size.

The prices quoted below include moving and planting with a large ball of earth, but are subject to deviation, dependent upon conditions at point of planting, distance, etc.

## FRUIT TREES AND SMALL FRUIT PLANTS

All of our fruit trees are carefully grown, true to name, healthy and well developed young trees. They are graded according to the Horticultural Standards of the American Association of Nurserymen. The caliper is taken two inches above the bud. Unless specially mentioned, the apple, cherry, plum, pear and quince trees are two years old, and the peach trees are one year old.

	<u>APPLES</u>	5 or more
	<u>Each</u>	<u>Each</u>
11/16 in. diam. $4\frac{1}{2}$ -6 ft._____	\$2.25	\$2.00

### Summer Fruiting Varieties

MELBA. Solid red. Same quality and appearance as McIntosh. A good variety for family and roadside market use.

YELLOW TRANSPARENT. The outstanding yellow summer Apple. This type is tall growing and habitually bears good crops of large, golden, juicy fruit.

### Autumn Fruiting Varieties

MAIDEN BLUSH. Pale lemon-yellow with crimson cheek. Comes into bearing young and is a reliable cropper.

WEALTHY. Handsome appearance and good flavor. One of the finest varieties of its season and especially good for commercial purposes.

### Winter Fruiting Varieties

CORTLAND. An improved McIntosh with brighter red fruit. Very juicy and a good keeper.

GRIMES GOLDEN. One of the best pure yellow winter Apples for home and commercial use.

JONATHAN. An early bearing variety, red, medium size, and a very good quality. Tree never large but productive.

NORTHERN SPY. A large striped red Apple, crisp, juicy and aromatic.

RED DELICIOUS. Large, dark red fruit with fine flesh, crisp and juicy, with a delightful aroma. Annual bearer.

RED ROME. A large striped red mellow fruit. Large growing and a heavy producer.

STAYMAN WINESAP. Very popular all-purpose, red-striped Fall and Winter Apple with a yellow flesh. Rich flavor, juicy, good eating and cooking variety. Should be planted with Jonathan or Wealthy to provide cross-pollination.

YELLOW DELICIOUS. High quality, beautiful color, good keeper.

FRUIT TREES AND SMALL FRUIT PLANTS

APPLES, DWARF

These miniature apple trees are ideal for garden or lawn planting, have the same kind of fruit as the standard varieties of the same name, but only grow to be 8 to 10 ft. high and start bearing earlier than the larger trees.

3½ to 4 ft. high, 6 yrs. old,	Each	5 or more

APRICOTS

4-5 feet \_\_\_\_\_ 3.00 2.50

ALEXANDER. Immense bearer of orange-yellow fruit flecked with red.

CHERRIES

11/16 in. diam. 4-5 ft. \_\_\_\_\_ 3.00 2.50

Varieties

BING. Very large, dark brown, almost black; flesh firm, sweet, rich, delicious. One of the most profitable. July.

BLACK TARTARIAN. Very large, black, juicy, rich. June.

EARLY RICHMOND. Medium dark red, juicy, rich acid. Best. A dependable cropper. June.

MONTMORENCY. Large, red, productive, ten days later than Early Richmond. Surest cropper for this climate.

NAPOLEON. Sweet Cherry, very large, rich, pale yellow with red cheek.

SCHMIDT. Fruit has a purplish black skin; firm dark flesh, large size and of excellent quality.

WINDSOR. Skin is dark red; flesh is firm and the trees are very productive. Good pollinizer for other varieties of sweet Cherries.

PEACHES

9/16 in. diam. 4-5 ft. \_\_\_\_\_ 2.00 1.50

Early Ripening Varieties

CHAMPION. A large, handsome, early variety, creamy white, with red cheek, sweet, rich and juicy.

CUMBERLAND. White-fleshed variety which is hardy, early and very freestone. Flesh is firmer and of better quality than most other white Peaches.

# THE SIEBENTHALER COMPANY

## FRUIT TREES AND SMALL FRUIT PLANTS

### PEACHES (con't.)

- GOLDEN JUBILEE. A new variety that is highly recommended. Midseason and of unexcelled quality. Yellow flesh with distinct blush.
- HALE-HAVEN. Large, beautifully colored, yellow-fleshed, freestone Peach, two weeks earlier than Elberta. Thrifty grower and very hardy tree.
- RED HAVEN. Large, yellow-fleshed, red skin freestone Peach. More highly colored than South Haven or Hale-Haven.

#### MID-season Varieties

- EARLY ELBERTA. Ripens about a week earlier than Elberta. Otherwise the same, or a trifle better quality.
- ELBERTA. Large, yellow, with red cheek; flesh yellow, firm, juicy, of high quality. Exceedingly prolific, sure bearer and hardy. The leading market variety.
- J. H. HALE. Golden yellow with deep crimson blush. Larger, five days earlier, and superior quality to Elberta.

#### Late Ripening Varieties

- WILMA. The fruit is as large as Elberta, its parent, but not quite so elongated; ripens about ten days later.

11/16 in. diam. 4-5 ft.	<u>PEARS</u>	5 or more
	<u>Each</u>	<u>Each</u>
	\$2.50	\$2.00

#### Varieties

- BARTLETT. Large, buttery, juicy, high-flavored, great bearer; very popular both for eating out of the hand and for canning. August and September.
- DUCHESS. Large, juicy, September.
- GORHAM. Similar to Bartlett in quality, excellent for dessert and canning. May be used as a pollinizing variety for Bartlett.
- KIEFFER. Large size, handsome appearance, and remarkable keeping and shipping qualities. October and November.
- SECKEL. Small; skin yellowish brown with brownish red cheek; flesh fine grained, sweet, richest and highest flavor. September and October.

PEARS, DWARF

These miniature pear trees are ideal for garden or lawn planting, have the same kind of fruit as the standard varieties of the same name, but only grow to be 8 to 10 feet high, and start bearing earlier than the standard trees.

### Varieties

BRIGHTON. Dark red, sweet and juicy berries of medium size, but borne in large bunches.

CACO. A new amber red variety of unusual promise. Its flavor is distinctive, sweet and delightful.

CONCORD. This is without doubt the best general purpose grape grown. Berry large dark blue. Bunches shouldered and compact.

DELAWARE. A well known red grape. Bunch and berry small, compact. Flavor unsurpassed.

FREDONIA. Similar to Concord but ripens earlier. Hardy, easy to grow and highly productive with large, compact bunches.

NIAGARA. The best white grape; bunch and berry large, meaty and juicy; flavor perfect.

PORTLAND. A new variety of white grape from New York. Very early and of highest quality.

WORDEN. A seedling of Concord, better quality. Ripens ten days earlier. Bunch and berry large, compact.

HARDY HERBACEOUS PERENNIALS  
AND ROCK GARDEN PLANTS

The color, ultimate height and principal season of bloom are given as an aid in arranging pleasing color combinations and in securing a succession of bloom throughout the season.

An asterisk (\*) indicates those varieties most suitable for rockeries.

Perennials should be planted whenever possible during their dormant season, which for most varieties is in the early Fall or early Spring. Peonies and Oriental Poppies have their dormant season during the latter part of August and early September, and should be planted at that time.

For the convenience of our customers, we have most varieties of perennials available in pots. These can be planted safely after the plants start to grow, and are available at 15¢ to 30¢ additional per plant.

SPRING FLOWERING BULBS

Tulip bulbs are used extensively for bedding, planting among evergreens and low shrubs, or in the perennial and annual borders. They add immensely to the gala Spring display of bright colors. They should be planted 8" to 12" apart, with 4" of soil over the bulb. Only those varieties are listed which are suitable for pleasing landscape effects.

Tulip Bulbs(Holland Grown) \$1.50 per 12,\$11.00 per C
